

"Bright front-end developer with extensive experience in UX/UI, graphic and web design. Eager to use my high-quality coding skills and innovative approach to support the organization in implementing its goals while also creating value for people in society."

SKILLS

Languages: Spanish, English, (Intermediate) Japanese

Programming languages: HTML5, CSS3, JavaScript ES6, Java, XML, PHP Wordpress

Frameworks/libraries: jQuery, Bootstrap, Angular, Ember, AJAX

Database: SQLite

Other: Git/GitHub, Android Studio, Adobe Suite

PROJECT EXPERIENCE

Memory Game

September 2018

- Completed a browser-based card matching game. Built a grid of cards, added functionality to handle user input and implemented gameplay logic.
- Created a fully interactive experience for users through the use of HTML, CSS and JavaScript.

News App

September 2018

- Used the power of Web APIs, HTTP network, JSON parsing and threads to create an app that updates automatically and displays the most up-to-date information available.
- Implemented a Settings Activity with a preference summary that allows the user to customize the results displayed on the main screen.

Inventory App

July 2018

- Learned how to create an SQL Database within an app and how to create custom tables within the database that were then linked to an activity within the app.
- Implemented a Content Provider that keep the data bug-free through validating all entries.

WORK EXPERIENCE

Freelance Graphic Designer and Front-end Web Developer:

May 2013 - Present

Past client - Lena Lashes

- Launched coordinated marketing campaigns through social media, email and text messaging to promote products, sales and specials that increased daily sales. This strategy brought total sales of up to \$80,000 during the month of March 2016, and to \$100,000 during the month of April 2016.
- Helped established the company's brand identity through the development of a style guide that allowed the company to keep a consistent look all accross its website, newsletter, trade shows and social media channels.

EDUCATION

Udacity - Front-End Web Developer Nanodegree

Sept. 2018 - Present

- Android Basics App Developer Nanodegree, Grow with Google Scholarship

Apr. 2018 - Nov. 2018
